

Have a Warmer 2012

In tough and competitive markets, businesses have realised that clients now want more for their money! Innovation is the key to the success of any business moving forward and to this we would like to be one of the first companies to offer you our NEW TRIPLE glazed product range.

The need to improve environmentally has made us look at the need to offer our clients a better thermally efficiency product, better sound reduction and better security. Energy prices have risen over the last 3 years by in excess of 13% in electricity and 27% in gas prices. (info from www.decc.gov.uk).

Therefore there has never been a better time to consider replacing any existing windows, doors and even conservatories that are not Energy Efficient. Our windows are BFRC “B” rated as standard, with the cost effective option to upgrade to an “A” rated window, which give you substantial savings on your heating bills!

We are now one of the first companies to offer a triple glazing option that makes our products even more thermally efficient and also improves on noise reduction.

TRIPLE THE GLASS = TRIPLE THE VALUE AND NOT TRIPLE THE PRICE!

	“U” Value	Noise Reduction	Security Upgrade
Standard A or B Rated Windows	1.5	-31db	N/A
28mm Triple Glazed Windows	1.2 (20% more efficient)	-32db (3% more Efficient)	50%
44mm Triple Glazed Windows	0.8 (46% more efficient)	-32db (3% more Efficient)	50%

Increase the energy efficiency of your windows by 46% by purchasing 44mm triple glazed windows!

This makes a fantastic reason to give us a try, together with:

- Quoted, Surveyed and installed by us – a personal service guaranteed
- All aspects of building work undertaken
- A professional, high quality product and service from a company with over 20 years experience

Should you wish to discuss any future projects with us, please do not hesitate to contact us and we will be more than happy to assist.
